alohas

rolling fridge

Most foodstuff can be stored with a minimum of energy. It merely has to be stored only a little cool, but dry and dark to stay fresh. Alohas is supposed to do that job. Alohas is a lifestyle product. The owner presents himself as an aware consumer without sacrifice. This providing unit is particularly laid out for single households. It fits a supermarket where the customer can examine commodity in a relaxed manner and pick it out in a pleasant ambience. The commodity will be filled into re-usable vessels in the requested amount which will be integrated into the unit. Focus on product quality. No products gone to seed. Less garbage.

Cargopacks 2020

inside

outside

three tanks to fill to tap off beverages
